ABOUT US

Environmentally friendly

Focus on sustainability

Constant innovation

Aiming to inspire

Continuously improving

Our vision is to create aesthetically pleasing high quality bath tubs. We strive to be market leaders on a global scale and via our expert research and technology teams we aim to provide high performance innovative products.

Our production processes are unique in terms of energy efficiency and are environmentally friendly. Our commitment to fully recycle all scrap and waste product are key company goals as we push towards minimising energy consumption and reducing CO2 emissions.

The team at Comparo specialises in private label custom designed products. We offer comprehensive support that includes product design, packaging design, logistics support and in-house mould development and manufacture. Our ability to produce high volume ensures reduced lead times and customer expectations are met.

Comparos unique ECO bathtub ranges are completely stackable. This ensures to reduce the freight cost of each item and underpins our company goal to help to reduce CO2 emissions.

We invite you to contact Comparo as we look for global partners to deal with. We have absolute respect for all relationships and very much look forward to the exciting journey that lies ahead.
